Honolulu stores looked as if they had been looted, according to San Francisco papers, when the Brazilian training ship Benjamin Constant and the Chilean training ship General Baquedano left here for the Orient. Says the San Francisco Call of May

"According to the officers of the liner Alameda, which arrived yesterday from Honolulu, the island port has just gone through a naval invasion similar to but on a smaller scale than the fleet visit to this port. The Brazilian naval training ship Benjamin Constant and the Chilean naval training ship General Baquedano, both on their way around the world, spent several we ks at Honolulu and were to have sailed the day after the Alameda took its departure. For the purpose of impressing the world with Brazil's importance the pay of the men on the Benjamin Constant is said to have been advanced during this cruise to \$50 a month, and when the Alameda sailed the Honolulu stores looked as if they had been looted. The Brazilian sallors were given generous liberty and they spent their wealth like water. It is estimated that the men from the Brazilian ship spent more than \$100,000 in Honolulu. Nearly every man ought, among other things, a camera and many of them acquired possession of phonographs, so many, in fact, that when the Afameda sailed there was not a talking machine left in stock in any of the Honolulu stores."

#### A.-H. PASSENGER BOATS.

Early next year the American-Hawailan S. S. Co. intends replacing the steamships Alaskan and Arizonan on the Honolulu, San Francisco and Seattle run, with the steamship Virginian and Missourian which will before then have been converted to an extent to give them accommodations for seventy-five cabin passengers each, and it is likely that the passenger rate, by these boats, will be lowered to \$60 one way and \$100 for the round trip between Honolulu and San Francisco, or between Honolulu and Seattle,

The American-Hawaiian Steamship Company has in the last year been making many changes and all for the better. A new schedule is just going into effect whereby the Nevadan and the Nebraskan run on the coast being materials. Office, 414 Fort street, tween Salina Cruz, San Diego, San Francisco, Seattle and Tacoma, and the Alaskan and Arizonan take the Honolulu-San Francisco-Seattle route. while the Virginian, Columbian, Texan and Mexican handle the run between these islands, the Tehuantepec line's Pacific terminal and San Francisco. The Missourian is at present in the Atlantic.

## A Tonic for Debility

A condition of general debility, aside from its discomforts, is dangerous, for it is an invitation to every acute disease we meet.

Mr. John F. Williams, of 911 Lincoln St., Anderson, Ind., says: "I was run down and suffered a great deal from sick headaches and pains in the back. My stomach was weak, appetite poor and complexion sallow. I had nightsweats, which so weakened me, that I had little interest in my work. I tried several doctors but got no better and remained in this condition until I read about Dr. Williams' Pink Pills and started to take them. I got so much relief from the first few boxes that I used them until I was entirely cured."

LEWERS & COOKE WILL APPEAL. Lewers & Cooke have moved in the Land Court for findings of fact in the matter of its application for a registered land title for the purposes of appeal to the Supreme Court of the Territory. This is the matter in which the Supreme Court of the Territory decided that Mrs. Mary H. Atcherley had an interest in a part of the land for which registered title was sought. That decision was on Mrs. Atcherley's appeal from the decree of the Land Court giving the title to the whole property to Lewers & Cooke. The present is an appeal by Lewers & Cooke from the amended decree of the Land Court giving a part of the land

to Mrs. Atcherley. In their notice of appeal Lewers & Cooke allege eighteen points of law on which they appeal, the principal ones being that previous decisions of the Supreme Court as to this particular land had given them the right to rely on the title, and that Mrs. Atcherley by several proceedings and by the lapse of forty years was barred from claiming title.
